

Environmental Commitment & Refrigeration Equipment Disposal

If you have a piece of refrigeration equipment that you no longer require we will be happy to provide you with a quote for the removal of this equipment. It will then be disposed of properly under the duty of care provisions of the UK environment protection legislation. For every piece of refrigeration equipment we collect and dispose of 97% of it is recycled.

Total Refrigeration Limited are also supporting the Woodland Trust (Reg. Charity in England and Wales No. 294344; in Scotland No. SC038885) by planting a tree for every piece of refrigeration equipment recycled. Over 7,800 trees have been planted to date across the UK.

If you choose to dispose of your own refrigeration equipment please remember it is your responsibility, under the duty of care provisions of the UK environment protection legislation, to ensure that all Ozone Depleting Substances are removed from your equipment before disposal at facilities approved by the Environment Agency.

Total Refrigeration Limited is a member of the Advantage Waste Brokers WEEE Producer Compliance Scheme and our WEEE Producer Compliance Scheme Membership Number is WEE/FC0255QV.
